

## Contents

The CD gives you basic information about the work of our research group.

[EIA.ppt](#): Animation about the principle of an enzyme immunoassay (EIA) for steroids using biotinylated labels.

[Stress-faeces-EIA.ppt](#): Overview of basics and applications of our EIAs for non-invasive monitoring of adrenocortical activity

[Steroids.ppt](#): Figures of important steroids

[Biosynthesis.pdf](#): Flow chart of the biosynthesis of steroids including their nomenclature

[EIA-protocol.pdf](#): detailed laboratory protocol

[ResearchGroupStress.ppt + INFO-letter.doc](#): short description of the work of our group (including references + pdfs of our papers)
