

ABSTRACTS EAVA - INFORMATION ON ABSTRACT FORMATTING:

The easiest way to format your abstract is to replace the text in the abstract template, which can be downloaded from the homepage, with your own text!

If needed the detailed formatting information can be found here:

The abstract should be written in MS Word format (.doc, .docx or .rtf). Font: Arial 10, single line spacing, A4 paper, justified.

STRUCTURE:

Title: left-aligned, bold, first word starting with a capital letter. Preferably less than 15 words in length and two lines maximum.

Author(s): bold italic. First names followed by last (family) names. Middle names should be included as initials. Separate authors with comma, last two authors separate using "and". Multiple author institutions should be indicated with sequent superscripted number for each name corresponding to the author affiliation below. The presenting author must be underlined.

Affiliations: Institute, University, Town, Country.

The abstract should reflect the content of the presentation and should include the following subheadings: **Introduction**, **Material and Methods**, **Results** and **Conclusion**.

Present the subheading to begin each section in bold letters followed by a full colon (:). Immediately after the full colon start with the text. Paragraphs should be avoided within a section. Sections should be separated by one line.

Introduction: Indicate the significance and purpose of the research and if required, cite primary literature sources. Indicate the statement, which is being tested and testable by the methods, as well as the original aims of the study.

Materials and Methods: Describe the research design. By submitting an abstract the authors certify that their work complies with the ethical guidelines for human and animal research.

Results: Brief highlights of the results obtained. All quantitative results should be analysed by appropriate statistical methods.

Conclusion: Should include reference to implications and applications drawn from results, including the potential relevance/significance of the results and/or the need for further research. Care should be taken by the authors not to overstate their conclusions.

If **references** are essential, they should be within the text, in the form: (Murphy et al. BJU Int 2005; 95 27-30). Left parenthesis followed by the last name of the first author followed by et al. (if necessary) followed by the abbreviated name of the journal without full stops followed by the year of publication followed by a semi-colon and the issue number followed by a space and the pages separated by hyphen followed by right parenthesis and full stop.

The abstracts, which involve animal experimentation, must include the number of approval as well as the name of the Ethical Committee that evaluated the experimental set-up, or else it will not be accepted.

Please avoid any special characters/symbols/artwork.

Take care not to use I (cap i) or l (ell) for 1 (one), O (capital o) for 0 (zero).

Figures and tables are not allowed in the abstract.

LENGTH:

300 words max. All representative text has to be counted (text except title, authors, authors' affiliations and approval of ethical committee). Abstracts, that are longer than 300 words, will not be accepted.

MEASUREMENTS & ABBREVIATIONS:

Units, symbols and abbreviations should conform to the International System of Units. Morphological names should be given according to last editions of NAV, NH, NEV and NAA. International Codes of Botanical Nomenclature, of Nomenclature of Bacteria and of Zoological Nomenclature should be used for respectively biological names.

PRESENTATION: preferably oral/poster

Please indicate which form of presentation you prefer. Please be aware, that the final decision will be made solely by the Scientific Committee and will depend on the quality of abstract/research as well as on the number of abstracts submitted under each topic.

The abstract should be titled **eava-2016-surname.doc** and sent to abstracts-eava-2016@vetmeduni.ac.at
