Research Institute

March

- 4.3. **Huu Duc Nguyen**, Robotics and Biology Laboratory, Technical University Berlin, Germany
The Parrobots project: An inter-disciplinary study of cockatoos and robots' intelligence.
[Link Blackboard Collaborate](#)
- 11.3. **Iris Fließner**, IMHAI master's student, supervised by Raoul Schwing
Social transfer of foraging information - MSc thesis.
[Link Blackboard Collaborate](#)
- 18.3. **Barbara Klump**, Department of Behavioral & Cognitive Biology, University of Vienna
A bird's eye view - ecological and social drivers of tool use and animal culture.
[Link Blackboard Collaborate](#)

April

- 8.4. **Sara Torres Ortiz**, Sound Communication and Behaviour, Department of Biology, University of Southern Denmark
Memory for self-perform actions in parrots, dolphins and pinnipeds.
[Link Blackboard Collaborate](#)
- 15.4. **Jennifer Colburne**
The missing link in current tool use origin theories.
[Link Blackboard Collaborate](#)
- 22.4. **Karoline Gerwisch**, PhD student, supervised by Ludwig Huber
New studies on overimitation in dogs.
[Link Blackboard Collaborate](#)
- 29.4. **16:00! Claudia Fugazza**, Department of Ethology, Eötvös Loránd University, Budapest, Hungary
Social learning studies in adult dogs and puppies.
[Link Blackboard Collaborate](#)

¹ 9:15-10:45 Messerli seminar room, online participation for persons on field trips

May

- 6.5. **Chanpen Saralamba**, PostDoc Conservation Biology Program, Mahidol University, Thailand
The long-term study of gibbons in Khao Yai: path from past to the future.
[Link Blackboard Collaborate](#)
- 13.5. **Eva Shair**, PhD student, supervised by Raoul Schwing
Goffins on the Tower of Hanoi.
[Link Blackboard Collaborate](#)
- 27.5. **Özge Nasa**, master's student Univie, supervised by Alice Auersperg
Individual techniques and weight discrimination of a stick tool in the Goffins cockatoo
[Link Blackboard Collaborate](#)

June

- 3.6. **Louise Mackie**, PhD student, supervised by Ludwig Huber
Reinvestigating overimitation in chimpanzees.
[Link Blackboard Collaborate](#)
- 10.6. **Lucrezia Lonardo**, PostDoc Clever Dog Lab
Pet dogs' processing of social stimuli.
[Link Blackboard Collaborate](#)
- 17.6. **Ana Tomašić**, PhD student, supervised by Christoph Völter
Investigating dogs' use of a common ground when referencing absent entities.
[Link Blackboard Collaborate](#)
- 24.6. **Jeroen Zewald**, PhD student, supervised by Alice Auersperg
Predispositions in the Goffins cockatoos' combinatorial object play
[Link Blackboard Collaborate](#)
