Precision Dairy Farming is one of the major topics that influences today's dairy farming developments world-wide.

After two successful International Precision Dairy Farming Conferences (in Leeuwarden, the Netherlands (2016) and Rochester, USA (2019)), the 3rd International Conference on Precision Dairy Farming will be organized, in conjunction with the European Conference on Precision Livestock Farming (ECPLF), in Vienna, Austria.

3rd International Conference on
PRECISION DAIRY FARMING
VIENNA, AUSTRIA
30 AUGUST – 2 SEPTEMBER
2022

Just as in previous editions, we are working on a programme on the crossroads of science and practise and aim at a conference that brings together **SCIENTISTS** who are interested in applied precision dairy farming technology, **INDUSTRY** who will be the key drivers in product and service development, **PRACTITIONERS/ADVISORS** and progressive **DAIRY FARMERS** who are the key users interested in the latest scientific developments.

IMPORTANT DATES

Jan. 31: Abstract submission closing
Mar. 18: Notification abstract acceptance
June 1: Paper submission closing

PROVISIONAL PROGRAMME

Tue, Aug. 30:   Welcome reception
Wed, Aug. 31: Scientific sessions (jointly
                          with ECPLF)
                          Conference dinner
Thu, Sep. 1:   Farm tours
Fri, Sep. 2:   Scientific sessions

For information, updates and contact: **www.pdc2022.com**

THEMES AT THE CONFERENCE

- Novel precision dairy farming technologies
- Farm automation
- Precision feeding
- Monitoring of welfare
- Precision animal health management
- Sensor-systems for disease management
- Grazing management
- Socio-economic impact of precision dairy farming
- Value creation
