Information

Data protections and security is very important to us. For the purpose of sample testing and result reporting your personal data is being processed and stored. The report and invoice are generated electronically and sent by e-mail. For further information on data protection see our [privacy policy](#).

The sender is responsible for the sampling. The samples are tested as received and become the property of the University of Veterinary Medicine, Vienna. If there is a suspicion of notifiable diseases according to the legal regulations the clinic is obligated to forward samples and/or information to the authorities.

Details and information on the investigations offered and prices are available on request.
