We are looking for students with a **solid** background in **statistics** and a lot of enthusiasm to investigate datasets in the field of animal behavior, communication and sexual selection.

We have research data on **fish** and several **mouse species**.

Konrad Lorenz Institute of Ethology; Savoyenstraße 1A, 1160 Wien; <https://www.vetmeduni.ac.at/klivv>

$$\lim_{n \rightarrow \infty} \left(1 + \frac{1}{n}\right)^n ; 55 \pm 3; \alpha = 0.05; p \leq 0.001$$
