

MASTERS OR BACHELOR PROJECT IN BEHAVIOURAL BIOLOGY

Our research group, located at the Konrad Lorenz Institute of Ethology (Savoyenstraße 1, 1160), is looking for students interested in doing their master or bachelor thesis in the field of behavioral biology and animal communication.

The student's work will be part of our current projects on scent and the role of ultrasonic vocalizations in sexual selection of wild house mice (*Mus musculus musculus*).
