

Master student position

The Kollmann group (<https://www.vetmeduni.ac.at/pharmakologie/team/forschungsgruppen>) is looking for a highly motivated master student excited about learning novel state-of-the-art methods in a collaborative and supportive research group! The focus of the project is to better understand cell cycle plasticity and the CDK interactomes in cancer cells.

The successful candidate will be exposed to a variety of methodologies including cell culture assays and a variety of molecular biology techniques, including western blot, co-immunoprecipitation, proliferation and apoptosis assays, and flow cytometric analysis. Experience with these methods is not required but is considered a plus.

The position is available from Summer 2025 and remains open until it is filled.

The student will receive a monthly stipend.

To apply please send a CV and cover letter to:

Dr. Karoline Kollmann
karoline.kollmann@vetmeduni.ac.at

and

Dr. Alessia Schirripa
