Dear applicant,

we look forward to welcoming you to the aptitude test at Vetmeduni Vienna.

For safety reasons please wear a FFP2-mask!

Please bring along:
- The invitation with your QR code!
- Official identity card (ID)
- Proof of a low epidemiological risk* in German or English language

Please keep all documents ready for registration (similar to check-in at the airport).

**Participation in the aptitude test is denied if you show SARS-CoV-2 symptoms or if you cannot present the above-mentioned documents at registration!**

For your own safety, please note the following process:
- Please be on time. The separate entrance for registration will be at Josef-Baumann-Gasse (map). Please note that the university campus may only be entered by applicants. Accompanying persons are not allowed on campus. We ask you to keep a safety distance of 2m from other persons during your stay on campus.
- After registration, please leave your jackets, bags, luggage, electronic devices etc. at the wardrobe inside the building CA. Please note that watches are forbidden in order to avoid misunderstandings.
- You will receive a wardrobe ticket with a new QR code and a wardrobe number which is also your seat number in the assigned lecture hall.
- Please only bring
  - the above mentioned ticket and your official identification document (ID) and
  - if you wish, something small to eat and drink to the lecture hall.
- Access to the lecture halls is from the side entrances (= lecture hall A on the left, lecture hall B on the right side) via the vestibule of the lecture hall centre. Please follow the signage.
- In the lecture hall you will be seated on the place with the same number as on your wardrobe-ticket. Short removal of the FFP2-mask is only permitted for eating and drinking. For safety reasons, bottles must not be re-filled.
- Please use the toilet before the aptitude test. Please avoid using the toilet during the aptitude test for safety reasons.

After the aptitude test, please return to the wardrobe at building CA to receive your belongings in exchange for your ticket.

We would like to point out that our supervisors are not authorized to give you any further information. If you have specific questions please send us an email: zulassung@vetmeduni.ac.at

We wish you much success!

Sincerely

Vice-Rectorate for Study Affairs and Clinical Veterinary Medicine

University of Veterinary Medicine Vienna
Veterinärplatz 1, 1210 Vienna, T +43 1 25077-0
zulassung@vetmeduni.ac.at, www.vetmeduni.ac.at
Participation in the aptitude test is only possible if the „3G“-Rules (geimpft, getestet, genesen – vaccinated, tested, recovered) are considered (https://www.vetmeduni.ac.at/de/infoservice/mitteilungsblatt/inhaltsuebersicht/studienjah
r-20202021/stueck25/#c106712).

Admission to the aptitude test is only possible, if a valid certificate of a negative SARS-CoV-2 test, or a SARS-CoV-2 vaccination, or a recovery from SARS-CoV-2 infection can be presented:

- Digital or printed certificates in German or English are accepted

Proof of a negative SARS-CoV-2 test result
Tests results are valid for different periods of time:
- Antigen tests carried out by an authorized body are valid for 48 hours from the time of taking the sample.
- PCR tests carried out by an authorized body are valid for 72 hours from the time of taking the sample.

Proof of a central (EMA) approved SARS-CoV-2 vaccination
Vaccination certificates are valid (counted from the day of vaccination) after the
- first vaccination from the 22nd day for a maximum of three months, or the
- second vaccination (booster shot) for nine month, or
- if the vaccine you received requires no booster shot (e.g. Johnson & Johnson) from the 22nd day after the vaccination for a total of nine months.

Attention: Used vaccines must be EMA approved. People vaccinated with other COVID19-vaccines will need a negative SARS-CoV-2 test result for registration.

Proof of recovery from COVID-19
- Proof of recovery from COVID-19 is possible by medical certificates or certificates of public authorities:
  - Medical certificate of an infection with SARS-CoV-2 within the last six months and confirmed by a molecular test.
  - Separation/Isolation notice/order by a public authority because of a confirmed SARS-CoV-2 infection within the last six months.
  - Medical certificate or a certificate of a public authority confirming neutralizing antibodies against SARS-CoV-2 within the last three months.
