

The University of Veterinary Medicine Vienna is active in teaching and research and provides services in connection with ensuring animal health in Austria. These tasks represent our contribution to maintaining the health of humans and their animal companions as well as to producing healthy food

To meet our objectives, the **University Clinic for Small Animals (Internal Medicine) / Department for Companion Animals and Horses** is starting a

Residency in Veterinary Dermatology

Grade:	B1
Level of employment:	40 hours
Length of employment:	01.01.2020 – 31.12.2022
Deadline for applications:	15.11.2019

Responsibilities

The goal of the residency program is an intensified training in Veterinary Dermatology and related disciplines. This includes knowledge of structure and function of the skin, immunology, parasitology, microbiology, dermatohistopathology, general pathomechanism of skin disease, endocrinology and related clinical disciplines. Residency in veterinary dermatology involves dermatology of companion animals, horses, ruminants and small mammals, as well as exotics and fish and basic knowledge of human dermatology.

- General goals:
 - knowledge of pathomechanism of skin disease
 - knowledge of skin diseases of dogs and cats, horses, ruminants and exotic animals, as well as related disciplines
 - training in dermatohistopathology
 - training in clinical problem solving using a problem-oriented approach
 - advanced diagnostic and therapeutic skills, presentation skills training
 - training of scientific presentation techniques
 - training in scientific writing
 - establishment of study designs and performance of clinical research

Necessary knowledge and qualifications

- Candidates should demonstrate a high level of motivation. They should be able to integrate themselves and to work as a team player. Furthermore, they should have successfully completed a one-year rotating internship programme or have equivalent experience (minimum of two years of general practice, which must be documented and subject of evaluation).
- They should be familiar with the requirements of the ECVD for residents (see the current version on <http://www.ecvd.org>). Successful applicants need to be fluent in German and English (level B2).

Applications must include an updated curriculum vitae and a letter of intent. In addition, 2 reference letters should be sent separately.

Minimum salary

The minimum salary for university staff is regulated by the collective contract and at the level given above amounts to EUR 2.864,50 gross per month (14 times/year). The minimum salary may be increased when previous employment and other salary components are taken into account.

Applications

Please submit applications quoting the **reference number 2019/1016** via e-mail (preferably) to bewerbungen@vetmeduni.ac.at or by post to the Personnel Department of the University of Veterinary Medicine, Veterinärplatz 1, 1210 Vienna. Please do not forget to include the reference number or we shall be unable to relate your application to the correct vacancy announcement.

The Vetmeduni Vienna is attempting to increase the proportion of female staff, particularly in senior positions, and in accordance with § 41 of the 2002 Universities Act it is striving to attain a balanced representation of men and women, especially on its scientific staff. Applications from qualified women are thus particularly welcomed. If women are underrepresented (below 50%), female applicants who are as well qualified as the best qualified male applicants will be given preference, provided that there are no strong reasons for favouring a particular male candidate.

Applicants have no entitlement to reimbursement of any travel or accommodation costs they may incur because of the application procedure.

The Vetmeduni Vienna is proud to have been awarded the certificate "*hochschuleundfamilie*" (career and family). We should thus be especially pleased to receive applications from people with families. Applications from persons with disabilities are similarly welcome.
