vetmeduni

The University of Veterinary Medicine Vienna (Vetmeduni) works to safeguard the health of animals in Austria through its teaching and research activities and through the services it offers. These tasks represent our contribution to keeping people and their animal companions healthy and to ensuring the production of healthy food.

To meet our objectives, the University is expanding its activities in the digitalization of veterinary medicine, research and teaching. Our vision is to transform our University of Veterinary Medicine Vienna into a leading digital institution. We are on an exciting mission of catalyzing a new performance culture. We create a collaborative, safe and engaging workplace, which forms the basis for high performing individuals and teams. Our ambition is to ensure our outstanding and passionate people have a creative space for developing own ideas, inspire each other and learn from the best. To this end, we are setting up a new team of experts for Digital Innovation, which will initiate and drive innovative digital services. The team of digitalization experts is embedded in the Digital Innovation and IT Services Department, which provides the necessary infrastructure and logistical backbone.

For the implementation and management of digitalization projects, we are looking for a

Digital Project Manager (all genders)
who has the freedom to create.

The Digital Project Manager will boost our digital portfolio by managing proactively projects for the University of Veterinary Medicine, Vienna, our five Campus Animal Hospitals, Partner Companies and new digital veterinary research fields. This includes creating and supporting ideas & innovations, driving digitalization initiatives as well as end-to-end project management. Key areas are cloud computing, data driven process automation and remote monitoring and sensing.

Grade: IVa
Level of employment: 40 hours

The salary may be increased, effective payment depending on qualifications and professional experience.

Applications

Please submit applications quoting the **reference number 2022/0968** via e-mail (preferably) to bewerbungen@vetmeduni.ac.at or by post to the Personnel Department of the University of Veterinary Medicine, Veterinärplatz 1, 1210 Vienna. Please do not forget to include the reference number or we shall be unable to relate your application to the correct vacancy announcement.

The Vetmeduni Vienna is attempting to increase the proportion of female staff, particularly in senior positions, and in accordance with § 41 of the 2002 Universities Act it is striving to attain a balanced representation of men and women, especially on its scientific staff. Applications from qualified women are thus particularly welcomed. If women are underrepresented (below 50%), female applicants who

are as well qualified as the best qualified male applicants will be given preference, provided that there are no strong reasons for favouring a particular male candidate.

Applicants have no entitlement to reimbursement of any travel or accommodation costs they may incur as a result of the application procedure.

The Vetmeduni Vienna is proud to have been awarded the certificate "hochschuleundfamilie" (career and family). We should thus be especially pleased to receive applications from people with families. Applications from persons with disabilities are similarly welcome.

Translations into other languages are solely for information purposes. The German-language version advertised in the University Bulletin (Mitteilungsblatt 27.10.2022) is the only one that is legally binding.
