

The Vetmeduni teaches, undertakes research and offers services designed to guarantee the health of animals in Austria. We view our work as our contribution to ensuring human health and the health of our animal companions as well as to the production of healthy food. To help us meet these objectives,

our **Centre for Metabolomics, Clinical Pathology Unit in the Department of Biological Science and Pathobiology**, is looking for a

Biomedical Analyst (m/f/d)

Grade:	IIIb
Level of employment:	40 hours/week
Duration of contract:	permanent
Deadline for applications:	22.10.2025
Reference number:	2025/0186

The team at the Central Laboratory (Clinical Pathology Unit) of the University of Veterinary Medicine, Vienna, is looking for two experienced biomedical analysts for a varied position. We perform diagnostics on samples from companion animals, domestic animals, laboratory animals, and wild animals using state-of-the-art equipment. We offer comprehensive training, regular working hours, and interesting projects that challenge your expertise and creativity. We are looking for people with an interest in the diversity that comes with the different characteristics of different animal species and patient-centered diagnostics. Good social skills, team work and a service-orientated outlook will help you in this very important role.

Responsibilities and tasks

- To independently perform hematological, biochemical, and cytological analyses according to ISO 9001:2015 certified quality standards for routine diagnostics and research purposes
- Participation in scientific projects
- Recording laboratory data/findings for method validations
- Preparation and archiving of teaching and archive material

Necessary education, knowledge and qualifications

- Completed bachelor's degree as a biomedical analyst or equivalent qualification, both with a valid record into the Gesundheitsberuferegister
- Basic knowledge of quality assurance in clinical laboratories
- Basic computer skills (Excel; Word)
- Very good German language skills (C1)
- Average English language skills (B1)

Desireable qualifications, abilities and skills

- Experience in veterinary analysis (especially hematological morphology)

- Awareness of species-specific analytical characteristics
- Interest in establishing new methods and implementing new diagnostic technologies in the field of veterinary clinical diagnostics
- A sense of responsibility, team spirit, reliability, commitment, willingness to perform, and a collegial attitude in the workplace
- Friendliness and competence in customer service
- Interest in scientific research

What we offer

- Top university: The Vetmeduni is one of Europe's leading academic veterinary education and research institutions.
- Stable employer
- Attractive campus
- Personal and professional training and development opportunities
- Preventive and medical health promotion
- Diversity- and family-friendly university culture
- Childcare and vacation care options
- Numerous attractive additional benefits
- Employee events

Minimum salary

The collectively agreed minimum wage for university employees according to the above classification is EUR 3,071.30 gross per month (full-time). This minimum wage may be increased based on previous service and other salary and remuneration components.

Applications

We shall be happy to receive your application in English language, quoting **reference number 2025/0186**, by e-mail to bewerbungen@vetmeduni.ac.at. Please do not forget to include the reference number, or we shall not be able to assign your application to the correct position.

In accordance with § 41 of the 2002 Universities Act, the Vetmeduni is striving to increase the proportion of female staff members, particularly in leadership positions, and to achieve a balanced ratio of men and women on its staff, especially the scientific staff, and would thus welcome applications from qualified females. If women are underrepresented (below 50%), female candidates who are as well qualified as the most appropriate male candidates will be given preference, provided that there is no reason to prefer a particular males candidate.

There is no cost for applying for the position. However, candidates have no rights to reimbursement of any travel and accommodation costs that may arise in connection with their applications.

The Vetmeduni is proud to hold the certificate “Hochschule und Familie” (university and family) and thus welcomes applications from people with families. We also welcome applications from persons with disabilities.
